Dear Mr. Troia,

Friends of the Riverfront (FOR) and our partners Allegheny County and the Pennsylvania Environmental Council have partnered together on riverfront trail and greenway development throughout Allegheny County. We are pleased to support the work of the Ohio River Trail Council to develop a multi-use trail along the Ohio River. As you know we are in the process of planning a trail along the Ohio River from the City of Pittsburgh to link with your efforts. These connections are important not only for local communities but also provide alternative transportation corridors on a regional level.

We are looking forward to the continued conservation and recreational development of our region's riverfronts. FOR is pleased to take an active role in moving this project forward.

Sincerely,
